

# **GOLD AND COIN EXCHANGE**

**BUY-SELL-TRADE**

## **GOLD PARTY INFORMATION**

Gold parties are similar to Tupperware parties, but instead of spending money the guests are making money. Friends gather to talk and spend time with each other while their gold, jewelry and other items are weighed and tested. Once the items are appraised guests will be given the option to walk away or sell their jewelry for payment right then. Gold Parties are becoming more popular as people look for ways to raise money during the current recession for themselves or their charity. So invite some of your closest friends. Bring your broken, outdated and unwanted jewelry and be prepared to make money while having fun.

### **FREQUENTLY ASKED QUESTIONS**

**Q:** What items do you generally buy?

**A:** We will buy necklaces, rings, silver flatware, hollowware, coins, bullion, pins, brooches, watches, and more! Believe it or not, we even buy things like gold teeth and broken jewelry! Bring it and we will look!

**Q:** What if my necklace is broken? Will you still buy it and, if so, will I get less for it?

**A:** Yes! We will still buy it and you will get the same amount as if it were not broken. We are paying for the weight in metal, not for the condition. It can be run over by a car and we'll still buy it!

**Q:** How do you know how much it is worth?

**A:** We will conduct acidity tests, magnet tests and other tests right in front of you and walk you through each step. We will also have the current Gold Spot Prices on hand.

**Q:** What if I decide I don't want to sell it and you have already tested it?

**A:** That's fine! No obligation or pressure to sell us your items. We will test it and give you a quote and you can then decide what you want to do. You can even bring it to another buyer to see that we will pay more!

**Q:** When do I get paid?

**A:** You will get paid immediately, at the party!

**Q:** How secure will it be with all that gold around?

**A:** VERY! We will have trained security on site. They can either be armed or unarmed, depending on what you are comfortable with.
